Portfolio Website: <https://portfolio-zgcx.onrender.com>

MERN stack Developer with hands-on experience from a 6-month internship at Hispirits Technologies. Strong foundation in JavaScript, React.js, Node.js, and MongoDB, with a focus on building responsive and maintainable web applications. Hackathon participant with proven problem-solving and teamwork skills. Driven to learn continuously, experiment with new ideas, and deliver practical, scalable solutions.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js for building responsive and interactive user interfaces.
- Backend: Node.js, Express.js, MongoDB for creating RESTful APIs and managing application data.
- React: Component-based UI structure, props and state handling, Context API, REST API integration.
- Tools: Git & GitHub for version control, Postman for API testing, ChatGPT and GitHub Copilot for development assistance.

PROJECTS

UBERClone - Real-Time Ride Booking System

- Developed an Uber-inspired ride booking system with real-time driver–passenger communication using Socket.IO.
- Implemented REST APIs with location tracking and ride status updates using Google Maps API.
- Built a responsive UI using Tailwind CSS.
- Project Link: <https://uberclonefrontend.onrender.com>,

Grocery E-Commerce Platform (with Admin Panel)

- Developed a full-stack grocery e-commerce application with a dedicated, secure admin panel. Implemented product, category, and inventory management with real-time updates.
- Built secure admin authentication with role-based access control. Integrated Razorpay Payment Gateway for seamless and secure online payments.
- Designed and integrated RESTful APIs to enable smooth frontend–backend communication.
- Project Link: <https://groceryfrontend-za4k.onrender.com>,

PREVIOUS EXPERIENCE

- Worked as a Frontend Developer Intern at Hispirits Technologies using React.js, HTML5, CSS3, and JavaScript (ES6+).
- Built responsive, reusable UI components and integrated REST APIs for dynamic data rendering.
- Optimized UI performance and resolved bugs based on testing and feedback.
- Actively participated in feature planning, code reviews, and UI improvements.
- Gained hands-on experience working in an agile, real-world development environment.

EDUCATION

Bachelor of Computer Applications (BCA) – DAV College, Jalandhar (2022 – 2025)

Higher Secondary (12th – Arts) – Shri Parvati Jain Sr. Sec. School (2021-2022)

Secondary School (10th) – Shri Parvati Jain Sr. Sec. School (2020-2021)
